Begin the New Year with some wisdom, lots of attitude and art, as Gallery Nucleus brings you "Nature of Water: An Art Exhibition Inspired by the Philosophies of Bruce Lee."

In his short lifetime, Bruce Lee has become a cult phenomenon and has inspired the world through his profound teachings in martial arts, philosophy and films. This group art exhibition will feature work by artists who have been influenced by Bruce Lee and pay homage to his pop iconicity and draw inspiration from his legacy through paintings, installations, sculpture and other forms of artistic expression. Quotes will be distributed throughout the gallery, as the show strives to reflect with images what Bruce taught with words and writing. That man is a fluid being and should live as one expressing our bodies and minds by not being confined to style or systems.

In collaboration and with friends of "Finishing the Game" (recent independent film by director Justin Lin) and with support from the Bruce Lee Foundation, Gallery Nucleus will be hosting the Opening Night on January 5, 2008 beginning at 7:00 PM. Shannon Lee, (daughter of Bruce Lee) will be joining us as a Special Guest of Honor as well as other surprise guests.

There will be:

- Giveaways (Toys, T-shirts, DVDs, and more)
- Bruce Lee look-a-like contest
- Free refreshments
- Dj Cyrano of KXLU will be spinning classic tunes

Located in downtown Alhambra, just south of Pasadena and North of the 10 freeway, Nucleus is a 1,200 square foot gallery with upstairs and down stairs spaces. Since our grand opening in October 2004, we have had a dozen shows with several minor art gatherings and guest events. We show several types of art work from commercial illustrators, to fine artists. Some of the artists shown include, Catia Chien, Jeana Sohn, Thomas Han, Luke Chueh, James Jean, Ronnie del Carmen, Enrico Casarosa, and Tadahiro Uesugi. With plenty of free parking, surrounded by several great restaurants and a downtown cinema, Nucleus art shows attract more than just the average gallery goer.
