#### **More about the artist:**

Born in Tokyo, Kazu Kibuishi is an American graphic novel author and illustrator. He is best known for his critically acclaimed *Amulet* series as well as being the creator and editor of the comic anthology *Flight* as well as creating the web comic *Copper*. The web comic artist and noted critic Scott McCloud has said that some of Kazu Kibuishi’s work is so beautifully drawn that “it hurts my hands when I look at it.”

#### **More praise for *Amulet*:**

“...Fans of Jeff Smith’s *Bone* will happily fret with the good guys and hiss at the baddies.” -- Kirkus Reviews

“ [The] action-packed adventure sequences move at an exciting clip...Part fantasy...and part manga, this has much to appeal to readers.” -- Booklist

“[S]tellar artwork, imaginative character design, moody color and consistent pacing...” -- PW Comics Week

*Since October of 2004*, Nucleus has strived to be a welcoming gathering place for the art loving community by offering quality art, art-related goods, and rarities. Focusing primarily on gallery exhibits, we have also had benefit auctions, product signings, music events, and artist lectures.

After three and a half years, we moved one block east to a much larger and more dynamic space. Still in the heart of quaint downtown Alhambra, we re-opened in March of 2008 with over 2000 square feet of open gallery space, 1000 square feet of shop/boutique, and over 3000 square feet of studio/production space.

Having exhibited both local artists and artists from abroad, and catering to an international customer base, we offer an extensive collection of original contemporary, illustrated, graphic, commercial, and narrative art. (All of which are carefully cataloged online in our website.)

Always open to the public, we welcome art collectors and the general public alike to visit us seven days a week.
